

BETHEL PARK HIGH SCHOOL RECEIVES A \$1,000 GRANT FROM WESTINGHOUSE ELECTRIC COMPANY

Bethel Park High School Technology Education Teacher **Art Smock** and his Transportation Power and Energy Systems students were awarded a \$1,000 grant from Westinghouse Electric Company's N-Visioning a Brighter Future Grant Program.

The transportation students are designing and building an electric scooter that will be used by the security staff at Bethel Park High School. The grant will allow the students to incorporate solar panels into the design to help power the scooter.

Bethel Park was one of five schools to receive this grant.
