

BETHEL PARK

SCHOOL DISTRICT

December 17, 2021

Dear Bethel Park Families,

Re: Positive COVID-19 case reported at NAMS

Today, a student at Neil Armstrong Middle School reported testing positive for COVID-19. The student was most recently in school on Dec. 10. Also, earlier this week, a student who attends the Pathfinder School, reported testing positive for C-19. That student was last in school on Dec. 14.

Bethel Park School District's health and safety protocols mandate that the individuals will remain isolated at home until their symptoms have abated and they have been cleared by a medical professional as being no longer contagious.

If your child tests positive for COVID-19, please notify your child's school nurse as soon as possible. Also, if your child is demonstrating any symptoms commonly associated with COVID-19 (fever, headache, muscle or body aches, congestion, loss of taste or smell, etc.), please play it safe and keep them home from school.

Finally, **anyone who visits any Bethel Park school during the school day will be asked to answer some basic screening questions** as we try our best to limit COVID-19 transmission amongst our school community.

Sincerely,

James Walsh, Ed.D.
Superintendent, Bethel Park School District
