

# BETHEL PARK

SCHOOL DISTRICT

Sept. 24, 2021

Dear Families,

***Re: Positive COVID-19 cases reported at Franklin and BPHS***

Earlier today, it was reported that a student at Franklin Elementary School and another student at Bethel Park High School have tested positive for COVID-19. The Franklin student was last in school, Sept. 17. The high school student was last in school, Sept. 22.

Bethel Park School District's health and safety protocols mandate that those individuals will remain isolated at home until their symptoms have abated and they have been cleared by a medical professional as being no longer contagious.

If your child tests positive for COVID-19, please notify your child's school nurse as soon as possible. Also, if your child is demonstrating any symptoms commonly associated with COVID-19 (fever, headache, muscle or body aches, congestion, loss of taste or smell, etc.), please play it safe and keep them home from school.

Finally, **anyone who visits any Bethel Park school during the school day will be asked to answer some basic screening questions** as we try our best to limit COVID-19 transmission amongst our school community.

Sincerely,

James Walsh, Ed.D.  
Superintendent, Bethel Park School District
