

BETHEL PARK

SCHOOL DISTRICT

Nov. 1, 2021

Dear Families,

Re: Positive COVID-19 cases reported at Franklin and Memorial

Over the weekend, it was reported three District students have tested positive for COVID-19. The impacted schools include Franklin Elementary (1) and Memorial Elementary (2).

The most recent days in school for those cases were:

- Franklin Elementary – Oct. 28
- Memorial Elementary – Oct. 22

Bethel Park School District's health and safety protocols mandate that those individuals will remain isolated at home until their symptoms have abated and they have been cleared by a medical professional as being no longer contagious.

If your child tests positive for COVID-19, please notify your child's school nurse as soon as possible. Also, if your child is demonstrating any symptoms commonly associated with COVID-19 (fever, headache, muscle or body aches, congestion, loss of taste or smell, etc.), please play it safe and keep them home from school.

Finally, **anyone who visits any Bethel Park school during the school day will be asked to answer some basic screening questions** as we try our best to limit COVID-19 transmission amongst our school community.

Sincerely,

James Walsh, Ed.D.
Superintendent, Bethel Park School District
