

Welcome to eSchoolPlus Home Access Center (HAC)

The Bethel Park School District uses Home Access Center as part of our Student Information System eSchoolPlus. HAC is a web-based student information system that allows you to view student registration, report card, attendance, discipline, transcript, success plan, course request, classwork, and scheduling information as it is entered in the school district's database.

To use this option, the school district must have your email address.

How to register online for a HAC Account

1. Navigate to the Home Access Center Log On page for the school district at the internet address:
<https://bpk-hac.eschoolplus.powerschool.com/HomeAccess/Account/LogOn?ReturnUrl=%2fHomeAccess>
2. Click the **Click Here to Register for HAC** link (located to the left of the **Login** button).
3. Enter your First Name, Last Name, City, and Zip Code from your mailing address.
4. Click **Register**.
5. If there are multiple students or contacts who have the same information as what you entered, you will be asked to enter your email address. Enter the email address and click **Register**.
6. If the system finds a matching record, the Home Access Center User Registration page displays. Enter a username and challenge questions and answers that can be used should you forget your login information, then click **Finish**.

If the username is not already taken, the system automatically sends an email containing a link for you to create a password to the email address that the district has on file for you.

7. You will receive an email from the district from the address ***bpsd.notify@bphawks.org***. In the email you receive from the district, click the **Create your Home Access Center** password link.
8. The Challenge Questions page displays in your browser. Answer the challenge questions, then click **Continue**.
9. In the Change Password section of the My Account page enter the same password in New Password and Confirm New Password fields, then click **Continue to Home Access Center**.

What are challenge questions?

Challenge questions are used to verify your account information if you need to reset your password. The Log On page has a Forgot My Username or Password link. When you click the link, an email including a link to reset your password will be sent to the email address provided to the school district. When you click the link in the email, you will be prompted to answer your challenge questions.
